

```
// You'll need  
// com.google.  
listRef.listAll  
.addOr  
prefixes.  
// All  
// You  
}  
it  
each { item  
the items  
}  
}
```

Phishing & malware protection in Google Chrome

```
Text('Section Title',  
style: TextStyle(  
color: Colors.red[200],  
),  
),  
),  
s.star,  
r: Colors.red[500],  
Text('23'),
```

How it works: Phishing protection

```
// You'll need  
// com.google.  
listRef.listAll  
.addOr  
prefixes.  
// ALL  
// You  
}  
it  
each { item  
the items  
}  
}
```

Sandboxing in Google Chrome.

```
// You'll need  
// com.google.  
listRef.listAll  
.addOr  
prefixes.  
// All  
// You  
}  
it  
each { item  
the items  
}  
}
```
